Karan Shah

★★★★★
1650 Users 45 mins

Confused about what career to choose? Always wondered what it would be like to explore the world of Sundar Pichai and Bill Gates? Are you curious to try your hand at coding or building your own app? Practically experience activities like designing a wireframe, coding, testing, etc. of your own app. Test yourself as a Computer Engineer through our online Virtual Internship Program (VIP), simply from the comfort of your home, anytime, anywhere!

Program Content

01 Introduction

In this chapter, Karan introduces you to the field of Computer Engineering. Learn the key steps of an IT project.

02 Project Introduction

Karan introduces you to the mobile app that you will develop today.

03 Design

The first step of any IT project is to make wireframes. Learn what wireframes are and how do designers develop them.

04 Design a Wireframe

Below is an example of a wireframe of a

SOLARTAIL CUSTOMISED SOLUTIONS TO SAVE ENERGY

Renewable Energy

Solar energy is a truly renewable energy source. It can be harnessed in all areas of the world and is available every day. We cannot run out of solar energy, unlike some of the other sources of energy.

Diverse Applications

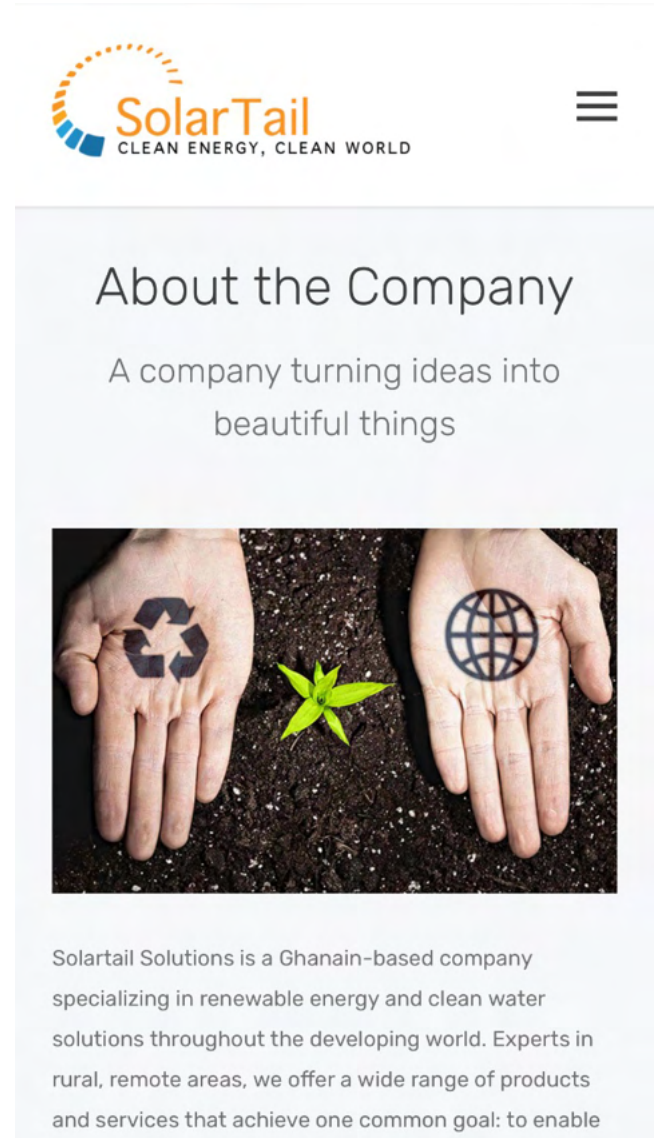

Solar energy can be used for diverse purposes. You can generate electricity or heat. Solar energy can be used to produce electricity, distill water in regions or even power satellites in space.

Solar is Carbon-Free

Solar energy systems generally don't require a lot of maintenance. You only need to keep them relatively clean, so cleaning them only a couple of times per year will do the job.

solartail.com

SolarTail
CLEAN ENERGY, CLEAN WORLD

About the Company

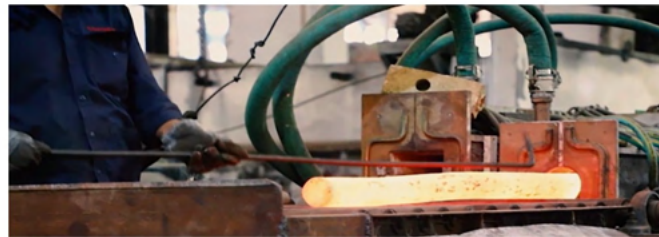

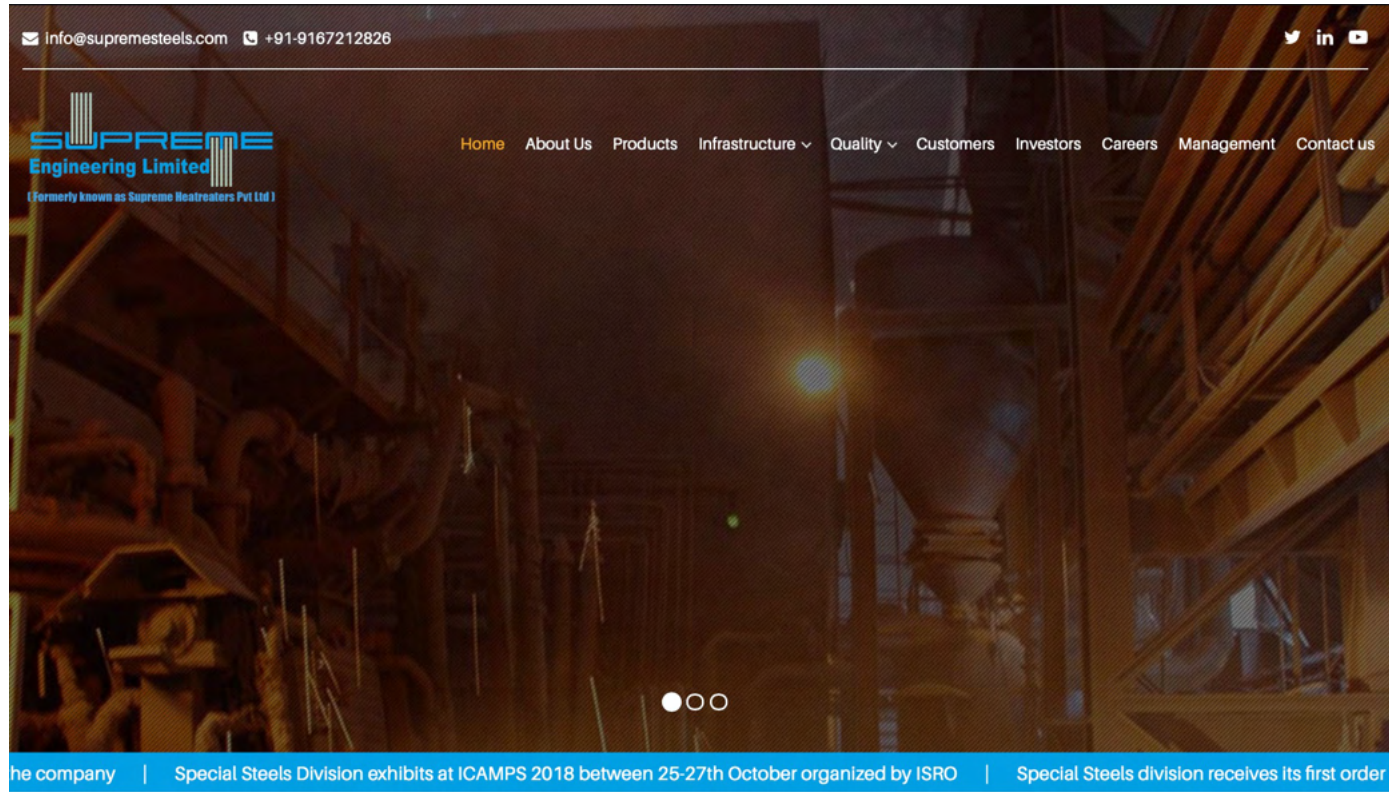

A company turning ideas into beautiful things

Solartail Solutions is a Ghanaian-based company specializing in renewable energy and clean water solutions throughout the developing world. Experts in rural, remote areas, we offer a wide range of products and services that achieve one common goal: to enable

the lazy baboons

Welcome to Supreme Engineering Ltd

Supreme Group established in 1987 and has been involved in high technology fields of metallurgy. Started as a wire manufacturing facility, Supreme has rapidly expanded to become India's leading manufacturer of special steels & alloys.

We have state-of-the-art manufacturing facilities, R&D laboratory and hold approvals from

supremesteels.com

Special Steels Division

We can also customize any special alloy as per customer requirement.

Superalloys

Nickel-Based Super Alloys have additional advantages for high temperature applications and hence are popularly used as bolting material, trim parts in valve application, and various aerospace, oil & gas and petroleum applications. These grades help in life-cycle improvement and usually have corrosion resistant properties even better than Duplex & Super-Duplex Stainless Steels.

NEHA ROONGTA

FINE JEWELLERY

Unique and wearable

Jewellery designer **Neha Roongta** introduces her festive jewellery collection, under the label **Neha Roongta Fine Jewellery**, with beautiful diamond jewellery. The selection features an assortment of classic bracelets, earrings, necklaces and rings. Her diamond collection is available in 18k white gold and an array of precious stones like rubies, sapphires and emeralds. She comes with years of expertise in the industry and has her roots in Hong Kong. Roongta

firmly believes that jewellery has the power to influence moods, provoke opinions and produce reactions.

"Our elegant designs are perfect for social gatherings; the gorgeous tassel necklace would be a perfect fit for office

parties," she says. "Explore the varied range of intricately designed diamond earrings with precious stones, which is sure to stand out at a family gathering. Our festive edit also includes a range of cocktail rings and delicate rings for the minimalists." She specialises in crafting statement pieces, which bring oriental, traditional and trend-setting designs together. Emanating from the intricate artistry of Asian cultures and medieval architectural forms from across the world, her artwork results in breathtakingly unique, wearable works crafted with expertise, with an amalgamation of Hong Kong jewellery manufacturing techniques. ♦

MEUBLE INDIA

Furnishing Excellence

adding to her sundry hotchpotch of antiques. Although she does collaborate with designers and artisans to create products, much of her collection features unusual pieces from her travels. Case in point is a 19th-century sevaian or noodle maker from Himachal Pradesh, shaped like a mountain goat, which she says is "a wonderful example of how artistic expression and adornment were such an integral part of creation...even kitchen appliances were made to be aesthetic". Khatau has always fantasized about places and times that she will probably never get to visit, which is why she loves anything that tells a story. "If you keep your eyes open all the time, you'll be surprised at how many beautiful things you can find in unexpected places." One of the first things she ever bought for the store was an antique wooden lion, which she got so attached to that she named him Sebastian. "Every time anyone came close to buying him, I felt a twinge of regret. It's never easy to find special pieces, but it's always harder to watch them go. One day, I got a call from my store saying that he had been sold. The next morning, I woke up to find Sebastian at the foot of my bed, as a Diwali gift from a friend!"

MEUBLE INDIA

The brainchild of five design enthusiasts — Hardik Naik, Parikshit Deshmukh, Bhushan Kapase, Harshad Jadhav and Chirag Chopra — this is a design studio, co-working space and cafe all rolled into one. The 3,000-square-foot Lower Parel property offers free Wi-Fi, a private desk section and a couch corner for meetings, for busy bees who want to work amid the company of heirloom artefacts and coffee.

One thing the owners steadfastly believe is that "antique furniture with a story should be sold at the right price to aficionados. The buyer should be happy to see the piece in their space without the feeling of having a hole in their pocket". Given that the ambience immediately reminds visitors of Rajasthan, it's not surprising that their claim to fame is their array of intricate, traditional jharokhas. One that you cannot miss, and which is the owners' favourite, is currently being used as an open balcony at the cafe — a wooden and cast-iron jharokha procured from a 100-year-old house in a small village near Jodhpur. Weighing around 800 kilograms, the 24-foot-wide and 12-foot-tall masterpiece displays some truly amazing hand carving skills. 🐒
